

PREREQUISITES

TEAM ID: PNT2022TMID54441

PROJECT NAME: IoT based smart crop protection system for
Agriculture

SOFTWARE

The image displays two screenshots of a Windows desktop environment. The top screenshot shows the IDLE Python 3.11.0 Shell window. The window title is 'IDLE Shell 3.11.0'. The menu bar includes 'File', 'Edit', 'Shell', 'Debug', 'Options', 'Window', and 'Help'. The shell text area shows the following content: 'Python 3.11.0 (main, Oct 24 2022, 18:26:48) [MSC v.1933 64 bit (AMD64)] on win32', 'Type "help", "copyright", "credits" or "license()" for more information.', and a prompt '>>>' followed by the command 'print("Hello world")' and its output 'Hello world'. The bottom screenshot shows a Windows taskbar with a search bar and several application icons. Below the taskbar is a terminal window titled 'Python 3.11 (64-bit)'. The terminal text area shows the same content as the IDLE window: 'Python 3.11.0 (main, Oct 24 2022, 18:26:48) [MSC v.1933 64 bit (AMD64)] on win32', 'Type "help", "copyright", "credits" or "license()" for more information.', and a prompt '>>>' followed by the command 'print("Hello world")' and its output 'Hello world'.
